

NOVA ANALYTICS - INTERNAL IT & INFOSEC POLICY

1. OVERVIEW

Standard operating procedures for IT infrastructure at Nova Analytics.

2. CLOUD INFRASTRUCTURE

Nova Analytics operates primarily on Amazon Web Services (AWS). Production databases are hosted in US-East-1 (N. Virginia) and EU-Central-1 (Frankfurt).

3. DISASTER RECOVERY & BACKUPS

Standard Procedure: All EU-Central-1 databases have an asynchronous failover backup routed to US-East-1 daily at 00:00 UTC. This applies to all tenants unless specifically air-gapped by manual engineering overrides.

4. OPEN SOURCE SOFTWARE (OSS) POLICY

Use of GPL v3 or AGPL licensed software is strictly prohibited.
